## 2. INTRODUCTION

---

### 2.1. PURPOSE OF THE DOCUMENT

---

The purpose of this document is to describe the activities related to the Dress Rehearsal tests.

The purpose of the Dress Rehearsal tests is to verify whether all applications of the Test Participants, and ultimately the production users of GPW WATS system services, correctly implement the technical aspects of joining and correctly support the functionalities of the GPW WATS system. The tests will be carried out using the pre-production infrastructure and instruments available in the pre-production environment of GPW WATS corresponding to those listed in the current trading system of the stock exchange. The list of instruments with the use of which the tests will be carried out is indicated in this document. Instruments not indicated in the above list will also be available in the WSE WATS system, but it is recommended to perform operations only with the use of instruments on the recommended list.

The tests will be carried out using both Data Centres in which the GPW WATS system is available, hereinafter referred to in the document as CPD (WA3) and ZCPD (WA2) – i.e.: Data Centre (WA3) and Backup Data Centre (WA2).

Orders in the WSE WATS system will not be transferred from Friday to the Dress Rehearsal on Saturday. i.e. all order books at the time of launching the GPW WATS system on the day of the Dress Rehearsal will not contain any orders.

All transactions concluded during the Dress Rehearsal will be sent to the billing system. In addition, files with contract cards will be generated and made available to Exchange Members in the 4Brokernet system.

After the completion of the Dress Rehearsal, orders will be removed from the GPW WATS system in the PrePROD environment.

After the test session ends, it is the customer's responsibility to verify the end of the session and the readiness of the client's application.

All customers are required to complete and submit a post-test report.

## 2.2. RELATED DOCUMENTS

---

Please read the document below to learn about the GPW WATS Trading System.

- GPW WATS 1.01 Trading System
- GPW WATS 1.02 Glossary

Please refer to the documentation of the transaction protocols operated by GPW WATS:

## 4. KEY INFORMATION

---

### 4.1. TEST PARTICIPANTS

---

All entities using GPW WATS Services participate in the tests:

- Exchange Members (CzG)
  - CzG sponsored clients;
- Members of Bond Spot (CzBS)
- Direct recipients of stock market information (DV)
- Companies acting as Authorized Service Providers (ADUs)
- National Depository for Securities (KDPW)
- KDPW\_CCP
- Polish Financial Supervision Authority (KNF)
- BondSpot
- GPW Benchmark (GPWB)

### 4.2. DEADLINES FOR COMPLETION OF ADDITIONAL TEST

---

Additional Dress Rehearsalstest will take place on the following dates:

- 30-31.05.2026

The Warsaw Stock Exchange requires participation in all Dress Rehearsal tests and strongly advises attendance on both Saturday and Sunday during those Dress Rehearsal.

### 4.3. REGISTRATION OF TEST PARTICIPANTS

---

Clients are required to register their participation in the Dress Rehearsal by submitting an application via the form available in the Project Portal (template in Appendix 1 to this document) or by providing the information indicated in this Appendix in the Service Desk system (<https://WATSSupport.gpw.pl>).

### 4.4. COMMUNICATION OF TEST PARTICIPANTS

---

GPW will communicate with test participants via the Customer Support Team:

- The Customer Support Team will be available from 7:00 a.m. to 7:00 p.m.;
- If you have any questions about the Dress Rehearsal, please contact the Customer Support Team via the ServiceDesk system: <https://WATSSupport.gpw.pl/> or by email: [ts@gpw.pl](mailto:ts@gpw.pl);

The Support Team for KDPW\_CCP and KDPW participants will be available from 8:30 a.m. to 5:30 p.m.

- If you have any questions regarding the settlement and settlement of transactions in KDPW\_CCP and KDPW, please contact us at the following email address: [wats@kdpw.pl](mailto:wats@kdpw.pl).

## 4.5. GENERAL ASSUMPTIONS OF THE TESTS

---

- Orders of Exchange Members and BondSpot Members on the Friday preceding the Dress Rehearsal tests will be cancelled by WSE and BondSpot at the end of the trading day in the PrePROD environment of the WSE WATS system;
- The following markets will be available during testing:
  - WSE markets;
  - BondSpot (Catalyst) markets;
- The entities indicated in point 4.1 must participate in the tests;
- Clients will be kept informed about the progress of the Dress Rehearsal by means of text messages sent by Market Data and in email correspondence to persons reported by test participants indicated in section 4.1 on the basis of applications completed in the manner described in section 4.3;
- Tests organised with the participation of ultimately production IT systems of the entities indicated in point 4.1, attached to the PrePROD environment of the GPW WATS system;
- The tests are organized according to the schedule made available later in this document and on the instruments indicated below;
- Each participant, while implementing the test schedule, monitors the correctness of the operation of IT systems as well as production systems;
- All transactions concluded during the tests of the Dress Rehearsal will be sent to KDPW/KDPW\_CCP;
- At the end of each day of testing, the "Contract Cards" files will be generated and made available to Exchange Members and BondSpot Members in the 4Brokernet system;
- After the completion of the Dress Rehearsal tests, orders will be removed from the WSE WATS system in the PrePROD environment (both on Saturday and Sunday);
- After the completion of the tests, on Saturday or Sunday, each participant is required to complete the Dress Rehearsal Test Report, which will be made available in the Project Portal (Dress Rehearsal Results Report menu) on the Friday preceding the Dress Rehearsal tests;
- In addition to the submitted Dress Rehearsal Test Reports, participant activity statistics in the Dress Rehearsals will constitute one of the elements taken into account when assessing readiness for the implementation of GPW WATS within the planned timeline.

## 4.6. FUNCTIONAL AND TECHNICAL SCOPE OF TESTS

---

Functional test requirements:

- The tests require the use of only instruments indicated in point 6, including those listed on the BondSpot market for orders and transactions specified in the Regulated Market Regulations (concerning BS participants);
- Entering orders, receiving confirmations of acceptance of orders, handling full and partial execution of orders (orders of various types);
- Sending modifications of orders: unexecuted and partially executed orders, receiving a message confirming the modification of the order, (orders of various types);
- Handling BulkQuotes orders (placing and canceling orders using BulkQuotes);
- Canceling an order, receiving an order cancellation message;
- Handling orders during different phases of the session and during instrument suspensions;

- Entering a unilateral (block) declaration, receiving a message confirming the acceptance of the order;
- Canceling the unilateral declaration, receiving the confirmation message of the cancellation of the unilateral declaration;
- Entering a bilateral declaration, receiving a message confirming the acceptance of a bilateral declaration;
- Receipt of a declaration rejection message;
- Downloading and processing of contract cards made available in the 4Brokernet system (if it is an important element of post-trial processing for the test participant);
- Downloading and processing files other than those indicated above in the case of entities using other postsession data to carry out the processes required in production activities;
- Receipt of information about possible deficiencies in the Short Code – Long Code mapping and completion of data between 5:00 p.m. and 7:00 p.m. (applies only to Exchange Members and BondSpot Members). Missing mapping elements must be completed by Monday at 11:59 a.m. at the latest.

#### 4.7. EXPECTED ACTIONS IN EACH PHASE OF THE SESSION

Actions expected only on the instruments indicated in point 6:

Session phase	Expected action	Monitoring activities
<b>Early Monitoring</b> (no trading)	No possibility to place orders. Receiving reference data. It is possible to receive a text message sent by the WSE.	
<b>Opening Auction phase</b> (Opening, Intraday)  Auctions (Auctions following Volatility Halt or Auctions following Unsuspension of an instrument)  At the end of the opening auction phase, the uniform rate is determined, orders are executed and the transactions are concluded.	<ul style="list-style-type: none"> <li>• Placing orders allowed in this phase of the session.</li> <li>• Using of all types of orders, validity and conditions of execution.</li> <li>• Modification of entered orders.</li> <li>• Delete orders.</li> <li>• Placing orders as a Market Maker.</li> <li>• Placing block transactions (does not apply to derivatives and ETFs).</li> </ul>	<ul style="list-style-type: none"> <li>• Checking the correctness of entered orders and their modifications.</li> <li>• Observation of the opening. Particular attention should be paid to the execution of trades at the opening and to the statuses of instruments and automatic changes in spreads at TKO outside of static spreads.</li> </ul>
Continuous Trading / Continuous Trading Phase	<ul style="list-style-type: none"> <li>• Placing orders and trades.</li> <li>• Using of all types of orders, validity and conditions of execution.</li> <li>• Modification of entered orders.</li> <li>• Delete selected orders.</li> <li>• Placing orders as a Market Maker.</li> <li>• Making block transactions.</li> </ul>	<ul style="list-style-type: none"> <li>• Checking the correctness of transactions concluded at the opening based on the orders placed.</li> <li>• Observation of the correctness of placed orders and their modifications.</li> <li>• Observation of the system's response.</li> </ul>

<p><b>Closing Auction Phase</b></p> <p>Auctions (Auctions following Volatility Halt or Auctions following Unsuspension of an instrument)</p> <p>At the end of the closing auction phase, the uniform rate is determined, orders are executed and transactions are concluded.</p>	<ul style="list-style-type: none"> <li>• Placing orders allowed in this phase of the session.</li> <li>• Using of all types of orders, validity and conditions of execution.</li> <li>• Modification of entered orders.</li> <li>• Delete orders.</li> <li>• Placing orders as a Market Maker.</li> <li>• Placing block transactions on instruments (does not apply to derivatives and ETFs).</li> </ul>	<ul style="list-style-type: none"> <li>• Checking the correctness of entered orders and their modifications.</li> <li>• Observation of the response of the GPW WATS system to actions that do not comply with the additional conditions for orders, e.g. rejection of an order with incorrect parameters.</li> </ul>
<p>Trading at Last Phase</p>	<ul style="list-style-type: none"> <li>• Place, modify, and cancel orders. Use the order type possible in this phase of the session. Attempts to place orders with a limit in excess of the applicable limit. Making trades.</li> </ul>	<ul style="list-style-type: none"> <li>• Checking the correctness of transactions</li> </ul>
<p>Late Monitoring (no trading)</p>	<ul style="list-style-type: none"> <li>• No possibility to place orders.</li> <li>• Placing block trades on instruments for which it is allowed.</li> <li>• The last phase of the market, in which the Exchange can continue to cooperate with the Trading System and perform tasks before the end of trading.</li> <li>• Some actions related to orders or transactions may be observed in the case of the transaction cancellation procedure.</li> <li>• In this phase, orders with a maturity date on the current date, as well as orders after the corporate action procedure may be automatically cancelled by the Trading System.</li> </ul>	
<p>Market Closed (no trading)</p>	<ul style="list-style-type: none"> <li>• No possibility to place orders.</li> <li>• It is possible to receive a text message sent by the WSE.</li> </ul>	

## 4.8. TEST SUCCESS CRITERIA

Participation of the entities indicated in point 4.1, on at least one day of testing, i.e. Saturday or Sunday and:

In the technical field:

- Correct, timely connection to the GPW WATS Services before the start of the session in the Pre-PROD environment of the GPW WATS system (i.e. no later than 8:15 a.m. CEST);
- Correct handling of HA emergencies (if tests are performed on a given date);
- Continuous, except for situations resulting from HA tests, connection to the GPW WATS order handling services (Order Gateway, Drop Copy Gateway, WATSon);

- Continuous, except for situations resulting from HA tests, connection to the WSE WATS Services in the scope of RMA (RMA API, RMA GUI);
- Continuous, except for situations resulting from HA tests, reception of public data from the Market Data Gateway;
- Correct and timely disconnection from the GPW Services after the end of the session in the PrePROD environment of the WSE WATS;
- During the tests, it is required that the test participants indicated in Section 4.1 join all ordered GPW WATS Services;
- Between 12:00 and 12:30 (CEST), on Saturday or Sunday, send the maximum (according to orders in eOrders) assumed activity using the minimum connection with the highest ordered bandwidth.

In terms of functionality:

- Sending a total of at least **100 orders** of each type, indicated in clause 4.6 for each of the types of instruments indicated in clause 6, in each phase of the session enabling the entry of orders (separate limit for joining the Order Gateway, separate for WATSon);
- Sending a minimum of **100 modifications** to previously entered and accepted orders (separate limit for joining the Order Gateway, separate for WATSon);
- Sending a minimum of **50 cancellations** to previously entered and accepted orders (separate limit for joining the Order Gateway, separate for WATSon);
- Conclusion of a minimum of **50 transactions** on CLOB instruments and a minimum of 2 transactions on the BLOCK market;
- Enabling and checking the correct operation of at least 1 of the algorithms, if they will be used in the production environment of GPW WATS;
- Confirmation of receipt and acceptance for clearing and settlement by the BackOffice/Clearing Participant of the transactions concluded during the tests;
- Setting, modifying, removing limits in the RMA API and/or GUI, if this service will be used in the production environment of GPW WATS;
- Launch of the KillSwitch function, if this service will be used in the production environment of GPW WATS;
- Use of the CoD functionality, if this service will be used in the production environment of GPW WATS;

In terms of organization:

- After the first test, on Tuesday, no later than 8:00 p.m., the Dress Rehearsal Test Report shall be submitted to the WSE via the Project Portal - regardless of the test results
- After the second and third test, on Monday, no later than 8:00 p.m., the Dress Rehearsal Test Report will be sent to the WSE via the Project Portal - regardless of the test results.

## 5. SCHEDULE

Please note that all times listed in the schedule below are indicative and are subject to change throughout the day. Confirmation and any changes to the schedule will be communicated via email. Communication will also take place via text messages generated in the GPW WATS trading system.

The given hours apply to both Saturday and Sunday.

### 5.1. ADDITIONAL DRESS REHEARSAL - SCHEDULE

#### 5.1.1. GPW – SCHEDULE OF THE ADDITIONAL DRESS REHEARSAL TESTS : 30/31 MAY

##### SATURDAY – 30.05.2026

Lp	hours	Operation	Description - additional information
1	00:01 a.m.	Start of the GPW WATS system	<ul style="list-style-type: none"> <li>Distribution of reference data</li> </ul>
2	07:30 a.m.	Connecting customer systems to the WA3 primary site	<ul style="list-style-type: none"> <li>Confirmation that client-side applications manage the access connection correctly and are operating as expected.</li> <li>Confirmation must be done for the connection to Basic Data Center (WA3),</li> </ul>

### 5.3. SUSPENSIONS OF QUOTATIONS ON INSTRUMENTS

Instruments for which the suspension of trading will be made

ISIN code	Name	Shortcut	Class	Instrument Suspension	Suspension phase	Suspension Type	Text message
AT0000827209	WARIMPEX	WXF	10	Yes	Core Continuous	Session supervision	Yes
PLBUDMX00013	BUDIMEX	BDX	02	Yes	Core Continuous	Session supervision	Yes

### 5.4. BLOCK TRADES

Block trades can be made on all instruments available in the system.

### 5.5. TRADING SESSION SCHEDULES

The trading session schedules for individual classes of instruments will reflect the current schedules in the GPW WATS – prePROD system, i.e. according to the following schedules:

1) quotations in the continuous trading system (excluding derivatives, debt financial instruments and ETFs):

8.30 a.m. – 9.00 a.m.	Opening auction phase (including opening price)
9.00 a.m. – 4.50 p.m.	Continuous trading phase
4.50 p.m. – 5.00 p.m.	Closing auction phase (including closing price)
5.00 p.m. – 5.05 p.m.	Trading at Last Phase

2) quotations in the continuous trading system for derivatives,

subject to point 3):

8.30 a.m. – 8.45 a.m.	Opening auction phase (including opening price)
8.45 a.m. – 4.50 p.m.	Continuous trading phase
4.50 p.m. – 5.00 p.m.	Closing auction phase (including closing price)
5.00 p.m. -5.05 p.m.	Trading @ Last Phase

3) quotations in the continuous trading system for debt financial instruments:

8.30 a.m. – 9.00 a.m.	Opening auction phase (including opening price)
9.00 a.m. – 4.50 p.m.	Continuous trading phase

4.50 p.m. – 5.00 p.m.	Closing auction phase (including closing price)
5.00 p.m. – 5.05 p.m.	Trading at Last Phase

#### 4) quotations in the continuous trading system for ETFs:

8.30 a.m. – 9.05 a.m.	Opening auction phase (including opening price)
9.05 a.m. – 4.50 p.m.	Continuous trading phase
4.50 p.m. – 5.02 p.m.	Closing auction phase (including closing price)
5.02 p.m. – 5.05 p.m.	Trading at Last Phase

#### 5) quotations in the continuous trading system for ETC and ETN instruments:

8.30 a.m. – 9.05 a.m.	Opening auction phase (including opening price)
9.05 a.m. – 4.50 p.m.	Continuous trading phase
4.50 p.m. – 5.02 p.m.	Closing auction phase (including closing price)
5.02 p.m. – 5.05 p.m.	Trading at Last Phase

#### 6) quotations in the uniform exchange rate system with double determination of the uniform exchange rate:

8.30 a.m. – 11.00 a.m.	Opening auction phase (including uniform price determination)
11.00 a.m. – 11.30 a.m.	Trading at Last Phase
11.30 a.m. – 3.00 p.m.	Opening auction phase (including uniform price determination)
3.00 p.m. – 5.05 p.m.	Trading at Last Phase

#### 7) quotations in the uniform exchange rate system with a single determination of the uniform exchange rate, subject to paragraph 6:

##### a) schedule on the trading day of determining the uniform exchange rate (with the possibility of submitting, modifying and cancelling brokerage orders and concluding exchange transactions):

8.30 a.m. – 11.00 a.m.	Opening auction phase (including uniform price determination)
11.00 a.m. – 1.00 p.m.	Trading at Last Phase
1.00 p.m. – 5.05 p.m.	Pre-opening phase

##### b) schedule on trading days without specifying a uniform rate (with the possibility of submitting, modifying and cancelling brokerage orders, but without the possibility of concluding exchange transactions):

8.30 a.m. – 5.05 p.m.	Pre-opening phase
-----------------------	-------------------

## 6. REFERENCE MARKET DATA

---

### 6.1. REFERENCE MARKET DATA

---

Reference market data (including reference rates) will be published in the Market Data feed on the day of the Dress Rehearsal. For the purposes of this Dress Rehearsal, the reference courses will also be made available to clients via an email file on the Friday after the session.

## APPENDIX 1 – TEMPLATE FOR PARTICIPATION IN THE DRESS REHEARSAL TESTS

---

In a separate file.

## APPENDIX 2 – SAMPLE REPORT AFTER THE DRESS REHEARSAL TESTS

---

In a separate file.
