## 4. INTRODUCTION

---

This document presents a list of GPW WATS Rejection Codes.

This document lists all rejection codes that may be returned by the Gateway in response to messages sent by the client.

The codes in the following chapter are grouped by the Market Models supported within GPW WATS.

The lists contain only business rejection codes returned by the application layer. The technical session level rejection codes are listed in the corresponding message definitions within protocol specification documents:

- GPW WATS 2.01 Native Order Gateway Specification
- GPW WATS 2.02 FIX Order Gateway Specification

## 5. REJECTION CODES

### 5.1. ORDER GATEWAY

The following table provides the list of rejection codes that may be returned by the Trading Gateway in various scenarios.

Each code may be applicable to one or more market models, including:

- CLOB – Central Limit Order Book
- OBТ – Off-Book Trading (including Block and Cross)
- HM – Hybrid Market
- IPO – Initial Public Offering
- TO – Tender Offer
